

Xanthe Moragregó, Westleigh Methodist Primary School

SLE: Mathematics

Xanthe is the Headteacher at Westleigh Methodist Primary.

Xanthe has the responsibility of leading teaching and learning across the school, which is part of the Acorn Trust.

She began her maths journey nine years ago when she became a Leading Teacher for maths in Wakefield, Yorkshire. From there, Xanthe was a maths lead for many years in two of the schools that she worked in, one of which where she implemented a mastery approach to maths, developing the Singapore approach to learning through 'Maths No Problem!'

Xanthe has supported staff in many schools, across many year groups in developing a high standard of teaching and learning as well as developing more experienced staff into leaders of mathematics with a clear vision for the subject.

Xanthe is passionate about teaching and learning in maths and the difference a mastery approach can make in developing children as inquisitive learners. She is currently working alongside her maths lead and Year 6 teacher in developing diagnostic questioning as a tool to guide planning and targeted intervention so that every child can succeed.
